Back-End: Ruby, Rails, MySQL.
Tools & Methods: Git, GitHub, GitLab, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools.
Professional: Remote Pair-Programming, Teamwork, Mentoring, leadership.

EXPERIENCE

SOLVIT AFRICA   Kigali, Rwanda(hybrid)
Front-end Developer   May 2022 – Present
- Become the best contributor of the month due to different improvements I made on a recent project
- Run jest integration tests for different web applications developed by the team before onboarding
- Facilitated the marketing department to come up with strategic marketing techniques which helped them to raise the sales in that month.

JUUBIX   London, UK(Remote)
Front-end Developer   January 2022 – May 2022
- Built user interface where entrepreneurs and investors interact which impressed my manager
- Proposed improvements on the codebase which proved to increase software performance
- Came up with landing page animation to engage the user to feel connected with the purpose of Juubix

MICROVERSE   Remote
Mentor (Volunteer)   November 2021 – Present
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

ITECH LTD   Kigali, Rwanda
Junior software developer intern   January 2021 – October 2021
- I earned a medal trophy as the best junior collaborator due to the contribution I made to different products.
- I came up with a new development strategy that solved the problem of merging conflicts during the development process.
- I earned appreciation from the CEO as a hard-working intern with a passion for what he does.

EDUCATION

MICROVERSE   October 2021 – July 2022
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

RWANDA CODING ACADEMY
Web development program

October 2020 – January 2021
- My team developed a project which was rated in the top five best projects of the program that could be turned into a profitable business.
